To install Citrix Receiver on an Android device

Go to the Google Play store and search for Citrix Receiver.

Accept the permissions and install the Citrix Receiver.

After you have installed the Citrix Receiver on your device, open it and click on Add Account.
For the address type [https://wyomwy.cernerworks.com/prod](https://wyomwy.cernerworks.com/prod) and click Next.

At this prompt select “Manual Setup”
For the Type, select Web Interface. For the Description choose a name that you would like. And click Log On.

After your initial setup when you open the Citrix Receiver you will click on the Keyboard icon on the top right of the screen.
Select the account you would like to log in to.

Enter your CernerWorks user name and password and click Log On.
Select the Millennium Application you would like to use.

This is an informational screen. You can turn it off if you would like.
Click on the down arrow on the top of the screen and click on the Keyboard. This will bring the keyboard up. Enter your Millennium User Name and Password and click OK.

You will be placed on the home screen that is set for your login. When you are done exit as you would normally do.
After you have exited the Millennium application click on the X to exit out of the Citrix account.
